

Shelter, a registered welfare organization, was set up in June 1981. Guided by the vision of giving children at risk a childhood and future by protecting, guiding and healing them, and by building strong communities and loving families, Shelter's services and initiatives are aimed at:

- Providing care for abused, abandoned, neglected or at-risk children through our residential homes, counseling, therapy and other services.
- Raising public awareness on child abuse/protection, parenting and youth issues, and equipping individuals with relevant skills to detect signs of abuse and to take action.

Shelter is supported by donations from the general public. This is one of the many fund raising projects by Shelter. All proceeds will go towards Shelter. We would be most grateful if you could participate in this desktop calendar project and contribute towards a more caring Malaysia.
